

Underage Drinking and Driving in Michigan

If your teenage/college son or daughter has been arrested and charged with underage drunk driving, get them the help they need and contact an experienced and respected DUI lawyer from the Law Office of Ray E Richards, II PLC today.

At the Law Office of Ray E Richards, II our attorney, Ray Richards, has been aggressively and effectively defending the rights of underage clients from throughout the state of Michigan for more than a decade including those from colleges and universities such as the University of Michigan, Michigan State, Wayne State, Grand Valley State, Eastern Michigan, Western Michigan, University of Detroit Mercy, Ferris State University and many of the Community Colleges such as Oakland, Macomb and Oakland and Schoolcraft.

Mr. Richard's experience includes providing drunk driving defense against all juvenile and underage DUI / DWI charges. The state of Michigan has a tough, no nonsense and unforgiving "zero tolerance" BAC threshold for underage drinking and driving. And while not technically "zero," the .02 BAC limit for juveniles is low enough that even something as innocuous as cough syrup or mouthwash can put a minor over the legal limit. Moreover, here in the State of Michigan your underage DUI indiscretion can and will follow you and count against you as an enhanced offense if charged with a DUI subsequently as an adult.

Attorney Ray E Richards, II will look into all the avenues of defense that may be available in your son or daughter's case and fight hard to gain a dismissal or reduction of charges wherever possible. If dismissal is not an option, Mr. Richards will use his negotiation skills to seek the most favorable disposition to the case.

Underage drinking and driving arrest? Let me fight for your child!
